

It is, if your clients have the right EDGE insurance for unexpected mishaps or injuries!

People are arranging to get away for holidays with family. They want to have fun and forget the workday grind for a brief time.

Often however, folks take chances in waters they are unfamiliar with, or boating, kayaking, trying new sports, maybe being inexperienced or improperly equipped.

An adequate income replacement contract can guarantee that an accident doesn't mean financial hardship when the summer passes. A fracture benefit plan will pay a lump sum for common fractures, so easily suffered on a beach volleyball court, or a hiking trip.

Sprains, strains and soft tissue tears are included in all EDGE plans.

A local hospital's Facebook page entreated patients to seek non-emergency advice and assistance from facilities without going to the emergency department. They are experiencing higher than normal volume due to summertime admissions.

Encourage your clients to review their valuable coverage or introduce an accident/injury plan. It doesn't prevent the incident, but it certainly makes living through recovery more comfortable when bills are paid and household needs are met.

EDGE has the products Guaranteed Issue & Guaranteed to Issue, including NO medicals and Immediate coverage

Good Selling!
