

In this “Year of Uncertainty” the only constant is continued Uncertainty!

While global markets and governments grapple with chaotic tariff threats and unresolved trade negotiations, ordinary consumers try to manage rising costs of household goods and services.

Economic uncertainty for Canadians is a daily concern.

Small businesses are affected in countless ways. How to weather the confusion in the markets? How to invest in the business? Hire more workers? Downsize? Pivot to accommodate change? When is the best time? Will we survive?
